GIS (GEOGRAPHIC INFORMATION SYSTEMS) SERVICES

Anjali Naini is the Firm's City Planner, and she is available to help all of our clients. Anjali has several years of planning experience, including GIS mapping. Her areas of mapping capabilities include:

- Demographic spatial analysis
- Digitization of maps not already in GIS (example: digitize old hard copy zoning map utilizing GIS)
- Downtown area maps
- Land use maps
- Parks and open space
- Special district overlay maps
- Utilities systems maps
- Zoning maps

Maps are customizable based on clients' input and needs. Anjali can produce maps that are clear to understand, aesthetically pleasing, and easy to update.

Benefits of using GIS:

- Maps and data can be easily updated and changed.
- Can be used to help municipalities implement their land planning goals and policies.
- Can help identify areas ideally suited for development; identify areas that should be conserved as open space.
- Further transportation and infrastructure planning.
